- Newly renovated homes offered at 25% below market value!
- Special low interest, easy qualifying financing options!
- Flexible Move-in-relief based upon specific needs!
- Jobs, Training and Apprenticeship programs available!
- Make Palm Beach County your new home!

Program Summary

The National Disabled Veteran Business Council, Inc. is proud to announce its Veteran Affordable Housing Program of Palm Beach County in conjunction with the City of West Palm Beach.

To qualify for these newly renovated homes, applicants must demonstrate active membership or an honorable discharge and the ability to afford the home. Homes will be offered at 25% less than market value at time of purchase.

We will offer assistance with assembling the documents required to apply for a V.A. loan or other mortgage product -- whichever is the best value to the veteran.

All renovations and support services are performed by veteran owned businesses utilizing veteran labor.

We are also working with private industry to identify the "jobs of the future" that provide a livable wage.

Veterans Housing, Construction Training & Jobs

Built by Veterans, for Veterans... this unique program provides the opportunity for Veterans to obtain jobs in the renovation of REO homes that may be in distress or foreclosure. These houses are then refinanced and purchased by Florida National Guard/Reserve members, qualifying disabled Veterans, qualified veterans.

Through our partnership with VETFORCE we are able to provide construction training, apprenticeships, jobs, and newly renovated homes to qualifying candidates.

Opportunity priority is as follows:

1. Florida National Guard/Reserve personnel
2. Service connected disabled Veterans receiving compensation of 50% or greater
3. Post 9/11 Veterans who meet the affordability rule
