## **NDVBC Trainee Skill Assessment Program**

The National Disabled Veteran Business Council, Inc., (*NDVBC*) is a 501(C) 19 Veteran service organization founded to provide advocacy to Veterans in business nationally. The apparent problems with employment for war-injured and newly returning veterans has not only been well publicized but not appropriately addressed. In order to offer opportunity, conduits must be formed with Veteran owned businesses and companies that understand and appreciate the value in this population, and to address their workforce needs. Many potential employers have a desire to hire Veterans but are concerned about the Veterans wellness.

With this in mind, the NDVBC created the Trainee Skill Assessment Program. Honorably discharged Veterans and non Veterans alike, claiming to have the work experience on their resumes, agree to have their skills evaluated. The evaluation takes between 90-180 full-time days. Once skills are verified by performing paid tasks, the trainees are referred within a statewide network of companies that will offer long-term employment or the opportunity to create their own business. The trainee agrees that they are not an employee of the NDVBC and will receive a 1099 which requires the trainee to pay all and any legally required taxes and fees.

Coordination for referrals will be orchestrated by the NDVBC primarily thru the VA and Department of Labor. Screening is a critical component to the overall success of our mission.

By my signature I hereby request to participate in the NDVBC's Trainee Skill Assessment Program.
